LOCKDOWN

Locks • Lights • Out of Sight • Silence

1	Immediately secure/lock the classroom or assigned area.
2	Turn off lights when practical and move students out of direct view from doors/windows.
3	Silence phones/devices. Maintain quiet. Stop normal class activity.
4	Take attendance/account for students quietly if it can be done without increasing risk.
5	Do NOT open the door for knocks, voices, or announcements unless the all-clear/entry is clearly authorized through the school emergency process.
6	If the planned location is unsafe, use judgment to move away from the immediate threat when a safer option is clearly available.
7	Remain in lockdown until an authorized all-clear or transition instruction is received.

DO NOT

Do not send students into hallways. Do not post live locations or emergency details publicly. Do not leave shelter solely to search for missing students.

MEDICAL EMERGENCY

Protect the person • Call for help • Control the scene

1	Call/request school emergency assistance immediately and provide the exact location.
2	Do not move the injured/ill person unless remaining in place creates greater danger.
3	Provide first aid/CPR/AED only within your training and school procedures.
4	Send or assign a responsible person to guide responding staff to the location when appropriate.
5	Keep other students back, calm, and supervised. Protect privacy.
6	Provide known facts to responders: what happened, observed symptoms, time, and actions already taken.
7	Complete required accident/incident documentation after the immediate emergency is resolved.

LIFE-THREATENING EMERGENCY

Use the school's emergency communication process immediately. If external emergency services are required under school procedure, ensure administration is notified at once.

EMERGENCY ACCOUNTABILITY

Your first responsibility after protective action is knowing who is with you

Situation	Accountability Action
In Classroom	Verify the current roster; note students who left before the action if known.
During Passing/Lunch	Keep the students physically with you; record names/approximate count as directed; expect students who are not on your roster.
After Evacuation	Take attendance at the assembly location and report missing, extra, or injured students.
During Lockdown	Account quietly when it can be done without increasing risk; do not leave shelter to find missing students.
Student Arrives During Action	Keep the student with your group if safe and report the extra student when possible.
Missing Student	Report through the designated channel with last known information; do not independently search during an active protective action.

REPORT FACTS ONLY

Use student name, class/period, last known location or circumstance, injury status, and whether an extra student is with you. Avoid rumors or unverified information.
